

God Knows You

[Intro]

God knows you, He knows your name,
God knows you, He knows your heart
He has known you from the start

[Verse 1]

Before you ever drew a breath
Before your heartbeat in your chest
God saw you growing, hidden there
And formed your life with wondrous care

He knows when you sit down or rise
He sees the world behind your eyes
He knows the words you cannot say
And every step along your way

[Chorus]

God knows you
He knows your heart
He knew your life
Right from the start
He knows your weakness
He knows your strength
He knows the road that you must take
The world may never understand
But you are known by His own hand

[Hook]

God knows you, He knows your name,
God knows you, He knows your heart
He knows your name, He knows your heart
He has known you from the start

[Verse 2]

He knows the battles that you fight
The hidden tears you cry at night
He knows the sins you must defeat
And still He calls you to His feet

God Knows You

There is no mask that you can wear
No secret hidden from Him there
Yet when you turn and seek His face
He welcomes you with truth and grace

(Chorus)

God knows you
He knows your heart
He knew your life
Right from the start
He knows your weakness
He knows your strength
He knows the road that you must take
The world may never understand
But you are known by His own hand

(Bridge)

He knows each hair upon your head
He knows the path your feet have tread
He sees what you are growing through
And what His Spirit can make of you

In Christ He makes our hearts anew
His workmanship in me and you
His Spirit leads us as we grow
Into the love His children know

(Final Chorus)

God knows you
He knows your heart
He knows your life
And every part
He knows your weakness
He gives you strength
And walks beside you all the way
The world may never understand
But you are known by His own hand

God Knows You

[Hook]

God knows you, He knows your name,
God knows you, He knows your heart
He knows your name, He knows your heart
He has known you from the start

[Outro]

God knows you, He knows your name,
God knows you, He knows your heart
God knows you completely
even after knowing everything about you
oh ya, God still loves you
And He always will

God knows you, He knows your name,
God knows you, He knows your heart
He knows your name, He knows your heart
